Fy Telegraph to The Times.

SAN FRANCISCO, Feb. 16.—[By the Associated Press.] The steamship Mariposa arrived from Australia and the Samoan aper correspondent who has figured in the seriin dispatches as having led the natives in the recent battle with the Germans, but spondent. When martial law was declared on the islands by the Germans an attempt was made by the latter to seize Klein, but he was rescued by the Americans, and took passage on the Oceanic steamship Mariposa for this port. When the Mariposa left the Samoan Islands they were still unhad become very marked, and it is claimed

o have been directed against the Amerians as well as the natives. The Mariposa left the Samoan Islands February 1st. On that date none of the American men-of-war ordered to go to the islands had arrived and the Germans, under operation of martial law, were in complete control of the islands and had commenced Gillan on the steam packet Richmond, from Auckland, Capt. Hand of the English warship Royalist ordered the man released and prepared for action. The Germans released Gillan on this demand. The goods which arrived on the Richmond for American merchants at Apia the Germans would not permit to be landed unless taken to a German storehouse and passed upon by the German official.

A NEWSPAPER SUPPRESSED. The Samoan Times was suppressed Jan-nary 19th for stating that but for German The Samoan Times was suppressed January 19th for stating that but for German support all the Samoans would join Matafa, and that unless Bismarck was decived, he would not attempt to enforce unpopular rule on the country. Prior to this Cusack, the editor, was fined \$100 for reprinting a certain American newspaper press comment on the Samoan situation.

Capt. Fritz, the German naval commander, on January 23d, issued an order instructing all residents of Apia to turn over all guns or ammunition held by them, and proclaimed the right of search. Capt. Mulian, of the American man-of-war Nipsic, protested against this action, stating that the American Government had never recognized Tamesses, and that no power would allow them to seize arms unless used against a friendly nation.

German troops acting as police in Samoa attempted to arrest Kiein, but at the advice of the United States Consul he went on board the Nipsic. On January 23th Capt. Fritz made a demand on Capt. Mulian to release Kiein, that he might be tried before the German military tribunal. The Captain replied that he proposed to protect all American citizens in Samoa, and that Kiein would not be surrendered for trial, and on February 1st he placed him on the Mariposa.

officer accompanying him were told first that war had not, and then that it had, been declared.

The British ship Longtellow arrived on the 20th from Guano Island. As soon as she came in she was boarded by an armed boat from the Adler, which left a guard on board. Scarcely had the German boat left the ship's side when a boat from the Royalist arrived to demand the reason for the presence of Germans in charge of a British ship. The German officer refused to surrender the charge given by his orders, and the English officer returned to his ship for further instructions. Capt. Hand, not knowing whether the Lougfellow had clear papers, would not take any immediate action. During the night, however, he found that the ship's papers were all right, and on sending a guard aboard the German guard left.

On January 20th the British Consul, British subjects to pay no attention to the proclamation of war, and that they were responsible to no person but the British Consul, and Governor of Fiji. The British Consul's posters had scarcely been up when Capt. Fritz put up another proclamation declaring that British citizens and those of all other nations there were under martial law, and that the for any offense against the stated regard lations they would be liable to proceetion by courtmartial.

Attremer to Capture Klein.

lations they would be liable to prosection by courtmartial.

ATTEMPT TO CAPTURE KLEIN.

Klein received information on the 20th from certain quarters that the Germans intended to arrest him on sight, take him on board one of their men-of-war, there to be sentenced to deportation or perhaps death by a courtmartial. His alleged chief of-fense was that he had led Mataafa's troops in the attack on German saliors at Vallele, and was the first to fire upon them on that occasion. In addition, he had heurred Germani resentment by being in camp with Mataafa, as he admits having been, in his capacity of special correspondent. Klein says the Germans knew he was the only white man present at that battle, and it they could get him out of the way there would be no one to prove that the natives had not begun the fight. In that case they could not claim indemnity under international law if the matter went to arbitration. As soon as Klein heard these threatening rumors he had a long talk with Consul Blackicel and Capt Mullan. He told them he was not desirous of leaving Samoa. They advised him to go on board the Nipsie, or he might be selzed, and could not be released, except after protracted diplomatic negotiations. The war correspondent, however, remained in his hired house that day, resolved that he would not be driven out of Samoa by the Germans if he could possibly help himself. His commit and captain said they would give him all the protection possible, but could hardly undertake to watch him all over Apla. and captain said they would give him all the protection possible, but could hardly undertake to watch him all over Apla-After the consultation he changed his quarters, getting another house that night. Consul; Blacklock came down at 12:30 the next morning to inform him that a German guard was on the Richmond all the previous day to stop him going away, and special policemen were looking for him. Upon this he went and slept with the Consul the rest of the night. He had kept on going to the hotel for his meals, but had no some returned therefrom the first time that day, when he spied a policeman waiting for him.

when he spied a policeman waiting for him to get beyond the bounds of the consultate AN ENGLISHMAN SEIZED.

In the meantime, on the 21st a German guard went on board the steamer Richmond and seized an English tourist named Gillan as a spy. They took him out of his bathtub, allowing him only time to get into his trousers and coat. His crime was that he had been taking a few sketches and had had an interview with Mataafa. Gillan was taken on board the Adler at 7 a.m., and it was several hours before Capt. Hand was apprised of the episode. The commander of the Royalist, on hearing of it, immediately sent a boat to board the Adler to say that if the man was not released forthwith he would be taken by force. The Royalist was cleared for action, and the Germans gave Gillan up. While in their custody he had been severely questioned, and presented with an array of grave charges. On the same day Consul Coetlogon lissued a proclamation that war had been dectared, and sked all British subjects to submit to search. An Englishman was seized on a boat hear the Richmond that day by an armed boat, and forced to go on board the Adler before Capt. Fritz. They swore he was an American. The officer shook his sword under his nose, and with an oath

prior to the arrival of the Mariposa today was to January 2d. On January 3d, Amatanani, one of the high chiefs of Tamasese, deserted to Mataafa's camp with 400 followers. The German consulate was burned on the night of January 9th. Sallors from the American and German men-of-war assisted in suppressing the fire. The German Consul telegraphed to Berlin that the lire was accidental, but afterward charged that the Americans and English were responsible for the casalty. German Consul Knappe on January 13th sent word to Mataafa that he wanted to have a talk with him, but the King deelined the invitation unless the Consul path this desires in writing, as otherwise he feared that he would seriously compromise his own position.

On the 14th several of Tamasese's cances were observed going to the Adler, one of the party coming ashore to the German Consul's to see that official. The captain of the Adler was on shore at the time. Capt. Mulain of the U.S.S. Nipsis seeing steam up on the Adler, sent on board to ask for luformation as to what the preparations meant. They told him they knew nothing of the intentions of the rebels nor the reason for getting up steam. The next day it was ascertained that Tamasese had intended making a descent on Apis that night, and that boats had come down to notify the German ship to be ready for this attack. When it the came known, however, that Mataafa's troops were well prepared to give them as w.-m reception, orders were given to keep Tamasese's force away?

On the 17th a boat belonging to Capt. Hamilton, the American whose property was destroyed in the bombardment of Metafagatele, was going down the harbor, when it was overhauled by a boat from the wife of Capt. Hamilton, the American whose property was destroyed in the bombardment of the German Consul and asked to have the boat released. Thereupon the German Emperor had give the boat released. A BRITON NOT TO BE BULLIED. Mr. Fietcher, manager for the large colo-nial house of McArthur & Co., casually remarked on the street that he believed the inited states and England would make war with Germany. Capt. Fritz, hearing this summoned Fietcher to appear before the German Consul and answer for the remark reported. Fletcher put himself under the advice of the British Consul, who told him under no circumstances to answer the summons.

reckless extravagance in the expen-of the people's money, and the open fagrant manner in which the public have been prostituted to make room laces to reward political strikers for rendered in the last campaign, has no little comment since the Bryson istration took charge of the city's Some of the methods of the Street mairs. Some of the methods of the Street iperintendent's office were shown up in the Times of Thursday, when documen-ry evidence was produced to the effect at the pay roll had been largely increased time for the election approached no other purpose, so far as known, ex-to find places for workers, besides sever points of a similar nature. This an other points of a similar nature. This orning another chapter is presented for the nesideration of taxpayers, which is of ocial interest, in that it shows an utter recard of ordinary business methods in a conduct of the city's business, and takes extravagance in the expenditure of edity's money by the Council, which is own in the unprecedented increase avernown in the unprecedented literase over sat year. To begin with, and for the pursons of comparison, the city's cash, or general fund, is taken. In the annual estimates if the Auditor, and in the tax levy commeted with that estimate as a basis, ne sum of \$200,000 was appropriated, after areful consideration, to the cash or general und of the city for the fiscal year of \$88-59. This is, in round numbers, \$17,000 a month, which was considered a most liberal allowance, providing ample margin for margencles, and in excess of any previous appropriation for this fund. The tax levy was adopted by the Council about the midlle of Angust last. In September last the lity expended out of this fund \$13,708.77; n October, \$15,193.83; in November, \$12,-41.50, and in December, \$15,03.72, making a grand total in four months of \$36,453.94, or an average of \$14,113.48 per month. These expenditures, as above stated, referrally to the cash fund, and do not include alaries of the police, firemen, city officials, to.

Now mark the difference under the new dministration: In the first place, as a road proposition, it may be stated that nere is no good reason why the expendities of the city should be greater this year can last. As a matter of fact, they should a less, for the amount of public improvements now going on is not as great, besides thich \$54,000 is saved on one item lone, that amount having been expended at year in paying for the grading and awins of street intersections, whereas now. ming of street intersections, whereas now, moder the proper construction of the Vrocan Act, all this expense is borne by the groperty-owners. But, notwithstanding his, warrants were drawn upon the cash und in the month of January, 1839, for the un of \$25,549.22, and during the first week of February warrants were drawn on the same fund for \$13,450.88, or at the rate of \$35,800 a month, in ound numbers. All of these figures are rom the official records on file with the lity Auditor, and their truthfulness can be substantiated by any one who will take trouble to go to the Clerk's office and sok over the books, which are public property and accessible to all. Of course, this a "business administration," but a moment's thought will show that at this rapid at the money in the fund, if judiciously polled, should have lasted to August 1, \$89, will become exhausted in about two nonths.

859, will become exhausted in about two months.

The same reckless extravagance characerizes the conduct of the police department, The salary list for this department as generally fluctuated from 60 to 70 men. The new Council increased the force 10, saking the total number 80, and fixing that the limit. Of this number 10 are counted and receive \$100 per month. The pay if the patrolmen was raised to \$55 per month, and here are 70 of these, and a little figuring the same ser are 70 of these, and a little figuring the same ser are 70 of these, and a little figuring the same ser are 70 of these, and a little figuring the same ser are 70 of these, and a little figuring the same ser are 70 of these, and a little figuring the same ser are 70 of the ser and the pay-roll or January, 1889, amounted to \$7999.56, the argest on record, or more than \$1000 in exess of what it should be. This immense necesses even attracted the attention of lark Styles, and that official called at the flayor's office to protest, when the Mayor's lerk told him that it was too near election into the the there was dropped.

Another straw which illustrates the business methods' of the administration at the renewal of the payment of 5 per cent.

A STILL IN COURT.

Prosecution in the W. Moore Young
Case Concluded.
The first week of the W. Moore Young
revenue case in the United States Court
closed yesterday afternoon, the Government side of the matter having been presented during that time, with the defense to come. The District Attorney has followed up the evidence of E. L. Davis, his principal witness, who turned State's evidence, and gave away the crooked metho ed at the distillery, with the testimon

principal witness, who turned State's evidence, and gave away the crooked method pursued at the distillery, with the testimony of various employés, designed to corroborate his statements. This line was continued yesterday, and the Government had about finished its case when the court adjourned at 4 e'clock yesterday afternoon.

C. E. Gardner, who was employed at the distillery on the night run, testified that it had been run night and day during the time covered by the charge, and that he had made brandy to the amount of about two barrels, or 100 callons, during that time. He said that he had seen the defendant Young at the winery a number of times, but not at the distillery at night. The brandy made was used in fortifying the wines made at the winery. It had been barrelled and rolled into the winery. The barrels had none of them been stamped. He knew about the buried tank and had pumped brandy in and out of it. The wine was in large tanks that held about 300 gallons each, and they put about eight barrels of brandy into each tank to fortify the wines. He testified that he got his wages from Young by an order given by Davis, the superintendent. He worked in the winery before he became night distiller, and did not know that they were making brandy.

James L. Warner, who was night distiller before October, and whose place the preceding witness took, testified that during his night run the distillery made about 150 gallons of brandy each night. He knew the defendant as secretary of the concern, and the man who paid him his wages by checks or drafts on the bank. Blasingame, the treasurer, never gave him any cash, the cashier of the bank cashing the drafts. He testified that the still ran day and night. The brandy they used in fortifying the wines, and what they did not use in so doing they ran into the concealed tank. This tank, he swore, was never used for aging winets for the bank cashing the drafts. He testified that the land Davis dug the hole for the buried tank, and he helped put it in place. Young was present

troduced a French still, with an expert, J. E. Bosch, who illustrated the method of distilling brandy, and made some right in the courtroom. The mouths of some of the jurymen were observed to be tremulously observant of the operation, but they didn't get any of the brandy. The object of this interesting and liquid evidence was to show that any one who could operate the still, as the Government claims the defendant could, must necessarily know all about the working of the distillery of the Fruitvale Wine and Fruit Company.

After the still was removed and the counsel had recovered from the lingering longing for a chance at the product distilled, the defense was allowed to introduce several witnesses who desired to return to Fresno. They testified solely to the previous good character and integrity of the defendant, giving him an excellent character. These wilnesses were Vice-president Phillips of the Farmers' Bank, B. Bixby, manager of the San Joaquin Lumber Company, Mr. Jahnsen, boot and shoe merchant, and Charles Burke, insurance agent, of Fresno. Frank Wants \$55,000 to Compensate Him for What He Might Have Made in the Next Ten Years-Testimony Introduced.

Juana A. Neal, for \$55,000, was resumed before Judge Wade, in Department No. 3 of the Superior Court yesterday morning. When the joynal Frank entered into a lease when the jovial Frank entered into a lease with Mrs. Neal for the construction of a first-class opera-house in 'boom-land,' roseate visions of "yellow boys" lingered around his pillow in the somniferous hours of the night. He would not otherwise have dedicated hard-earned shekels to the amount of \$5000 as a first payment to clinch his contract, and agreed to pay \$10,000 an-nual rental for 10 years for the Los Angeles Theater when completed. He paid the

nis contract, and agreed to pay \$10,000 annual rental for 10 years for the Los Angeles Theater when completed. He paid the \$5000 when work began on the opera-house, but not the \$5000 when the house was completed. Having defaulted in his last payment, the astute H. C. Wyatt had secured an arrangement by which he, instead of Frank, opened the opera-house, and has continued to play attractions there even to this day. Upon the basis of the first lease, and the subsequent Wyatt arrangement, Mr. Gassaway claims that he has grounds for the recovery of \$55,000.

The winesses examined in the case yesterday included both Mr. Gassaway and Mr. Wyatt Gassaway narrated the manner in which he became imbued with the belief that the Los Angeles Theater would be a gold mine for him, and the negotiations with the Neals, which resulted in the terms of that document apon the boom values that existed last year, and the subsequent negotiation of the lease in the Los Angeles National Bank for a loan of \$5300. He set forth the expenses which he had incurred during the past several months, while waiting on "tenter-hooks," as his counsol pertinently put; for the settlement of the disagreement which had arisen. A part of the claim made by him includes prospective salary at the rate of \$550 a month, and incidental expenses incurred in various and sundry trips between Los Angeles and San Francisco. The substance of his testimony was that he had made a contract and had a lease which he had vished to carry out, and as an earnest of that intention had put up \$5000, and that the parties of the second part had failed to live up to their acreements.

One of the complications of the case is the fact that when the note for \$3000 was due in bank, which Gassaway had borrowed on the lease, Wyatt bought up the unpaid obligation and secured the lease, which was turned over again to the Neals as one of the conditions under which he opened the opera-house, instead of Gassaway.

M. Lehman, ex-lessee of the Pavilion and theatrical manager, was introduced by

profits of the Los Angeles Theater would have been under the management of Mr. Gassaway for the ensuing ten years; but the Court, upon objections from counsel on the other side, refused to allow expert testimony on theatrical prospective profits. He testified that he had a conversation with Mrs. Neal in November last, at a time when he was considering the proposition of taking a one-half-interest with Gassaway in the theater, and that she told him that he would be obliged to deal with Mr. Wyatt, because she had leased the theater to him, or that he had Gassaway's lease. She did not say anything about Gassaway having forfeited his lease, or when the theater would be completed. She said that she had given Wyatt a lease.

They testified solely to the previous good character and integrity of the defendant, giving him an excellent character. These witnesses were Vice-president Phillips of the Farmers' Bank, B. Bixby, manager of the San Joaquin Lumber Company, Mr. Jahnsen, boot and shoe merchant, and Charles Burke, insurance agent, of Fresno. The case for the Government being about closed, the defense will, on Monday, begin the introduction of their testimony.

He Must Answer a Charge of Disturbing the Peace.
Schultz, formerly one of the proprietors of the Vienna Buffet, who was arrested at that place Thursday afternoon and locked up on a charge of disturbing the peace, but who was released by Justice Austin Friday afternoon, was rearrested yesterday on a warrant sworn out before Justice Lockwood by Benson, the manager of the place, charging him with disturbing the peace at the same time and place as on the first charge, when he was arrested by the policeman. Schultz was taken before Justice Lockwood, when his case was set for trial, and he was released on depositing elesse. Mr. Wyatt was piaced on the witness. Mr. Wyatt w

some morphine to quiet him, as he was very nervous, and on his refusal to do so the doctor insisted on it. He then left, and was again called up at 10 clock in the morning, when he came and found Schultz still very nervous and wanted to give him morphine, which he again refused to take. Later he was taken out and given a comfortable bed, where Chief Cooney found him the next morning. He asked to be allowed to send for a messenger boy, when Mr. Cooney said that he would do better than this, he would allow him to go in person, which he did. Nothing nore was thought about the matter until the trial before Justice Austin. As soon as Benson saw the report, making out that Schultz was a marty, he went before Justice Lockwood and swore out a complaint against him, saying that as he had disorderly when he had him arrested, he did not propose to have the officer put in a false position by his action. The case will come up probably on Monday, when there is likely to be something new brought out.

A POMONA CASE.

The Ladies Wanted the Land, and Damages to Boot.
On Wednesday, the 12th inst., a case of more than usual interest occupied the attenion of Judge Van Dyke in the Su

Court, and because of the novelty of the defense sought to be made to the action it furnishes some interesting reading.

From the papers in the case, and from the statements of the attorneys on the trial, it appears that in the month of February, 1887, Col. George Phoras and Col. Frank P. appears that in the month of February, 1887, Col. George Rhorer and Col. Frank P. Firey of Pomons entered into a contract with a man by the name of Bila of the same place, by which they agreed to sell Bila 25 acres of land in the Rancho San José at an agreed price of \$3375, one dollar of which was to be paid down, and the balance as soon as another payment should be made to Bila under another contract. Col. Rhorer made out the contract of sale, and signed for himself and Firey, who was absent at the time. Rhorer reached the contract to Bila, and held out his hand for the dollar, but Bila only laughed at him and left, taking the contract, which he placed on record, and also went into the possession of the land.

on the contract was averse to carrying it out.

On the 26th day of May following, Bila, accompanied by J. S. Mills and W. S. Arnold, went to the office of Rhorer & Firey and tendered to them the sum of \$5374 and demanded a deed.

This was before the payment mentioned in the contract to Bila had been made. Firey asked if the money was Bila's, and when told yes refused to sign the deed. The land had risen to be worth \$500 an acre at this time, or \$12,500 in all, and on the same day Mills and Arnold bought for their wives, the defendants in this action, all the right of Bila in the contract and took an assignment of it and paid Bila \$2500 therefor, and went into possession of the land.

Firey, in the spring of 1888, finding that Mrs. Mills and Mrs. Arnold had succeeded Bila, offered to make them a deed, and demanded the \$5574. The ladies refused to pay the money and refused to give up the land, and Rhorer & Firey in their distress hastened to the office of Wade & Murphey, who brought the suit in question against the ladies to compel them to take the lan and pay the \$3374 or else surrender up the possession.

But the ladies were in for woman's rights,

and pay the \$3374 or else surrender up the possession.

But the ladles were in for woman's rights, and to this demand of khorer & Firey, said, "Nay, we will do neither." and to the office of Lee & Scott they headed without delay, and the result was an answer to the blaintiffs, in which the ladles claimed that they, through their assignor Bila, had, on the 25th of May, 1887, offered to pay to plaintiffs the said sum or money and demanded a deed, which was refused by plaintiffs; that the land was at said time of the value of \$12,500, and that at the time when plaintiffs offered them a deed, April 19, 1888, the land had greatly fallen in value, and was not at that time of a greater value than \$3374; that plaintiffs had acted in bad faith in refusing to give a deed, and that defendants were thereby damaged in the sum of \$9126, and asked judgment in that sum against the plaintiffs.

and asked judgment in that sum against the plaintiffs.

The ladies also clung close to the land, thinking doubtless that, if successful, they would have a fine bergain after all; that is, the land and a judgment against the plaintiffs for \$5752.

The ladies and friends were in high clee at the prospect of success, and everything seemed fair until on the trial the attorney for the plaintiffs, J. L. Murphey, objected to the introduction of any evidence on the past of the defendants under their answer, claiming that they could not make such a defense unless they rescinded the contract or accepted the breach of Rhorer & Firey and gave up the possession of the land at the time of their refusal to give the deed, or else before their offer to make a deed to them.

This is said to be the first case in which this defense has been made to such an action in this county. The land in question is said to be worth much more than the price agreed to be taken, and the plaintiffs are anxious to get the land back, but the ladies are bound to have a home in the city of Murchison, and after they take the case to the Supreme Court to worry the hateful men awhile longer, they will, if they get no relief there, pay the amount due.

FULL TEXT OF THE STORY AS

Pittsburgh Capitalists Found Out That There Is Oil in California, and Why They Strongly Suspect the Presence

The following, taken from the Pittsburg Commercial, gives a full report, the gist of which was telegraphed by the Associated Press some days ago. There are some feat-ures of the story that look a little shadowy, and some of the historical references—notarers in a railroad tunnel by a gas ex--will be news to the oldest resident

A gigantic scheme for the developmen of the California natural-gas territory i of the California natural-gas territory, now in progress. The capitalists who are at the back of the movement are George Westinghouse, Jr., and the remaining prominet stockholders of the Fuel Gas and

Westinghouse, Jr., and the remaining prominet stockholders of the Fuel Gas and Electric Company, as well as a number of the leading members of the Philadelphia Company. A number of prominent and weatiny residents of California have also taken stock in the new corporation, and the intention is to begin operations at once. This same company will also develop the oil-producing territory of the Goiden State, but the operations in that line will not be commenced until the gas development is well under way.

The territory in which experts say plently of the natural fuel is to be found is located in the southern portion of California, not far from Los Angeles. The presence of gas in that locality has been known for some time, but the residents of California, having had no experience, never made any attempt at development. At the time of the building of the Southern Pacific Railroad a number of terrible gas explosions occurred in the locality in which the proposed wells are to be located. One explosion took place in a tunnel which was in the course of erection, and was attended by a large loss of life, some 20 Chinese laborers being killed. This one occurrence very forcibly impressed on the minds of the people of that section that Pennsylvania's celebrated fuel also flourished in Southern California.

About that time oil was found in paying quentities 38 miles south of San Francisco The oil lands were developed to a certain

nia petroleum. It has none of the disagreeable door which is the great drawback to Lima oil.

The presence of crude oil and the reported gas development led a number of wealthy California capitalists to make further inquiries. A regular survey was then made, which resulted in the experts declaring that the field was an excellent one. Mr. Westinghouse and others learned of the results and became greatly interested in the new field, and as a result the company referred to above was formed. The California members of the concern, anxious to go ahead with the work of development, requested that an expert from this city be sent there to make a survey and also to locate the points where wells were to be put down.

In compliance with this request Charles A. Ashburner of this sity, the geologist for the Fuel Gas Company, was detailed by Mr. Westinghouse to go to California and do the work required. He left last night for San Francisco on the limited express, accompanied by his family, who will remain in that State for several weeks, or until the field is fully opened.

Mr. Scott, for the destrict, made a long argument in favor of the position of the defendants to recover this damage, notwithstanding that they held on to the possession, but Judge Van Dyke held that the position of the defendants could not be maintained, and that in order to recover this damage, notwithstanding that they should have surrendered the premises to the plaintiffs at the time of the alleged breach, and then that they could maintain their action, but that to hold to the land and rely on the contract and then ask for damages, when they had all that they had bought—the land—would be absurd, and gave judgment that the defendants pay to plaintiffs the said \$3374, with interest, within 60 days, or failing in that, then that they must give up the possession of the land to the plaintiffs.

This is said to be the first case in which this defense has been made to such an action in this county. The land in question

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me \$200,80 (two bundred dollars) and an immense amount of suffering. My disease (paoriasis) commenced on my head, in a spot not larger than a cent. It spread rapidly all over my body and got under my nails. The scales would drop off of me all the time, and my suffering was ondless, and without relief. One thousand dollars would not tempt me to have this disease over again. I am a noor man, but feel riob to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I took and Sarsaparillas over one year and a half, but no cure. I wont to two or three doctors, but no cure. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was three boxes of CUTICURA REMEDIES. The solvent and three bottles of CUTICURA BOAR. If you had been here and said you would have cured me for \$200.00, you would have cured me for \$200.00, you would have not me to the province of the money. I looked like the picture in your book of psoriasis gicture number two, "How to Cure Skin Diseases", but no w I am as clear as any person over was. > I am going to tell you of the extraordinar oure your Curicuaa Remedies performed on me. About the 1st of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar spotted on, and which came off in layers, accompanied with itching. I would scratch every night until I was raw, then the layers, accompanied with itching. I would scratch every night until I was raw, then the next night the scales, being formed meanwhile, were scratched off again. In vain did I consult all the doctors in the country, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your CUTICURA REMENDIES, and purchased them from my druggist, and obtained almost immediate relief. I began to notice that the scaly cruptions gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began taking the CUTICURA REMEDIES, and in four or five weeks was entirely cured. My disease was eczema and paoriasis. I recommended the CUTICURA REMEDIES to all in my vicinity, and I know of a great many who have taken them, and thank me for the knowledge of them, especially mothers who have babes with scaly eruptions on their heads and bodies. I cannot express in words my thanks to you. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as nice and clear as a baby's.

The central and largest is devoted to a portion of the Riverside exhibit. The Riverside card is seen on other tables, but the finest display is on the center table. As a testimonial of her seniority as an prange growing district and shipping point Riverside was given a choice of places, a compliment deservedly hers as is conceded by other sections.

The absence of sectional jealousy is a pronounced feature of this fair, which is very creditable.

Each district takes its place with an honest pride and self-respect, conscious of having done its best.

This may well be so, for there is a uniformity of excellence in the exhibits from all sections of the citrus belt.

Riverside led the way and solved the problem of orange culture. The other sections have profited by her experience, and their exhibits vie with that of Riverside in perfection. Redlands and Highlands are following close in her wake.

A MISSING MAN.

Re Started for Chicago with a Pocketful of Greenbacks.
On the 8d of January last Peter Junius, a wealthy young man who has made a great deal of money in real estate in this city, started for Chicago, He purchased his ticket at the Santa Fé office, and his triends of the Narcisa House saw him on board the train. Since that day his friends, both in Los Angeles and Chicago, have not seen or heard from him.

The singular part of the story is that he carried a large sum of greenbacks about his person, and there were several hard cases in this city who were aware of that fact.

in this city who were aware of that fact. His triends were to meet him in Chicago, but he did not show up, and they now fear that be has been murdered and robbed. Yesterday the case was put in the hands of the Chicago Chief of Police, and a large reward has been offered for some information of the thissing man.

Consumption Can Be Cured
This has been demonstrated in thousands of cases treated by D.R. Will L. L. A.M. R.,
With his new system of medicated inhalations, also the oxygen and compound oxygen treatment, combined with proper constitutional remedies for the liver, stomach, bood etc.
Probably no system of practice ever adopted has been so universall, successful as that introduced by Dr. Williams for the cure of Catarrh, Throat Diseases, Bronobitis, Asthme and Consumptic OATARRH.

Cararrh is often re-aread by the patient as a coid in the bead, and he often expresses his aston shment at his remarkable tendency to coniract a fresh coid. Indeed, he deciares he is scarcely free from one coid before he takes another; and he is aways exceedingly caseful. It is also a matter of surprise to him that the coid always seems to settle in the head and throat.

At times many of the symptoms of Catarrh may seem to abate, and the patient is led to hope that the disease is about to wear off; but another class of symptoms soon appear, and he learns to his horror that instead of recovery from the disease it is somewhat changed in its character and has axtended to the throat. A sense of weariness is sometimes felt in reading, speaking or singing, hoavenness at times occurs, a sensation of dryness is sometimes felt in the throat, or it appears that some foreign substance, as, for instance, a hair, obstructed the throat, there becomes a sense of languor and fatigue the broat cough, a peculiar sound in clearing the throat. THAT is a pretty slick scheme o country constables to pocket the hardearned dollars of Los Angeles taxpayers by bringing in men as tramps, and dividing the profits with the arrested parties.

A SPECIMEN of what we may expect rom a Democratic administration of the city may be found in the fact that the gambling games are running full blast, without any one to trouble them or make the proprietors afraid. Yet the third-party reformers will, we presume, work into the hands of the Democrats, as usual.

THE Express of yesterday, referring to a dispatch stated to have been sent to Mayor Bryson, says:

It is said, on pretty good authority, that the telegram was sent by T. J. Cuddy, who, now Mayor Bryson has received the nomination, has made up his mind to accept the inevitable, and will work for him with all his power, which although he is confined, is considerable, and will count much in a close race.

How proud respectable Democrats must feel, to learn that the local region.

must feel, to learn that the local policy of their party is being largely shaped by a man who is suffering merited imsonment for attempted bribery of a juryman!

THE Herald, referring to the good work done by the short Democratic administration now drawing to a close, says that measures have been taken to grade First street, and that the work will be completed within forty days. That is all very well, but if the Council had arranged to have the paving of ary, a large portion of which money First street completed within forty eks from its commencement, the taxpayers of the East End would have peen far more sensible of the adminis-tration's good qualities. As it is, it looks as if the work would take forty onths, or perhaps forty years.

As soon as eastern people discover that y can now get good land here cheap nd on easy terms, they will begin to k in again in large numbers. Meantime, let us cultivate the soil. Our leaving such large tracts of asserted land fallow leads new arrals to believe that our statements exaggerated. A Game of Bluff.

Klein, the American corresponden to whom Germany has paid so much attention, has returned from Samoa and brings further particulars of the condition of affairs there. It seems that martial law still prevails and the Germans are running things with a pretty high hand, not only in relation to the natives, but also towards the Americans and English, only staying their hands whenever a British or American officer, with guns at his back, makes a decisive protest. Gernan methods have been introduced towards the newspaper, the Samoan Times having been fined \$100 for reprinting an American comment on samoan affairs.

By the way, some of the statements in the "White Book" presented to the Reichstag verge on the humorous. A document dated February 2d, sent by Count Herbert Bismarck to the German Admiral in Samoan waters, says:

Admiral in Samoan waters, says:

Germany is not at war with Samoa, as the term is understood by international law, but she regards Tamasese as the rightful ruler and Matanfa as a rebel, against whom and his followers retaliation must be enforced. Anyone standing by them is a promoter of the conflict between them and the Germans, and must take the consequences.

This is very rich, considering that Maliaton was forcibly removed from

Malietoa was forcibly removed the islands against the wishes of the natives, because he refused to play into the hands of the Germans; that Tamasese was forced upon them, and that the latter's adherents only number's handful of Samoans. That the German authorities understand the true state of affairs is evident, from a telegram sent last November by Prince Bismarch to Dr. Knappe, saying that if a "vindication" of Tamasese was impossible the utmost advances should be made to reconcile him with Mataafa.

It is plain that the Germans have been playing a big game of bluff. The will probably back down as soon as they are sure that we will "call them.

No Danger of Invasion.

In view of the remote possibility of a war with Germany over the Samoan question, considerable interest is being aken in the feasibility of landing body of troops in this country. Several distinguished military authorities have been appealed to, and have recently given their opinions on the subject. Col. Bigelow, Adjutant-General of the District of Columbia National Guard, in a recent lecture, drew attenion to the fact that the effectivenes of the ocean as a strategic obstacle is due principally to the two difficulties of transporting an army by sea, and of landing an army on an enemy's coast. For a long voyage, a regiment of in-tantry requires to large steamers; a division of 10,000 men, at least 30, and an army corps of 33,000 men, at least, 135 large steamers. An examination of the navy lists of foreign powers shows that, even under the most favor able conditions, with the exception of Great Britain and perhaps France, no nation has at any given moment sufport across the seas of 50,000 men.

In his report for 1884, Gen. Sheridan I do not think we should be much alarmed about the probability of wars with foreign powers, since it would require more than a million and a half of men to make a campaign upon land against us. To transport from beyond the ocean that number of soldiers, with all their munitions of war, their cavairy, artillery and infantry, even if not molested by us while in transit, would demand a large part of the shipping of all Europe.

There is no doubt that Uncle Sam would be able to dispose of any force which a foreign power could land on our shores.

Democratic "Usefulness"

The Herald yesterday called attenrecord of the outgoing municipal administration. Said our contemporary:
The present administration has been
Democratic and useful, and its career has
given evidence that the Democratic party
will undertake the control of the city's
affairs in a businesslike and patriotic spirit.

That the present administration has been Democratic we shall not attempt o dispute. It is also an undoubte fact that it has been "useful"-to its

pelitical friends. In another column of this issue give the Council full credit for its Denocracy and usefulness, showing how it has drawn, during January, \$22,549, and \$13,450 for the first week in Februhas gone to reward adherents for ser vices rendered, or to retain them for work to be done.

Such a régime is undoubtedly an ideal one for the bummers and hangers-on who live on occasional political favors, but what do the taxpayersthe Democratic taxpayers as well as those of the Republican faith—think of this sort of reckless expenditure? How long can it last in view of the present

ed condition of affairs? Would it not be safer so to circumscribe the sphere of "usefulness" of these Democrats that it should be confined to the handling of their own money?

Filthy Food.

Many persons maintain that the flesh of the hog is unfit for human food. These views are supposed to find confirmation in the exceptionally high scale of vitality attained by the Jews Granting, however, that the hog, when raised on vegetable food and given suf ficient exercise, furnishes as healthy human nutriment as any other animal it is impossible to find a word of paili ation for so horrible a state of affairs as that which is disclosed in the followfruit which will cause them to ing extract from an article in the San eyes. Animals so kept and so fed cannot possibly be healthy while living, and the mortality among them must be great, and even of those that live to be slaughtered it is safe to say that a very large percentage are diseased, and their fiesh therefore unfit for human food. They are kept in these vile dens of darkness and filth for five or six months before they are slaughtered.

The fool and fetid air from these hideous stles rises through the floors and fills the slaughter-houses above, tainting and spoiling the flesh of the newly-slaughtered animals which are hung up to cool for days before being taken to market. Even out in the open air in the avanues the stench from these sties is intolerable, and the whole atmosphere of Butchertown is contaminated by the reeking fumes from these loathsome dungeons.

The butchers' offal and garbage is not proper food upon which to fatten animals intended for human consumption.

At present diseased organs of slaughtered animals diseased organs of slaughtered animals are thrown to ravenous swine, wallowing in gory filth, and by them are torn and devoured. To see the hog here, grown wild from his bloody fare and horrid surroundings, tearing at his offensive food, with feet spread out to hold it, and his long incisors making great rents in the fetid material, would scarcely be credited by a people so civilized as San Francisco boasts.

This all happens in an age that boasts of its high degree of civilzation, and in a Nation which boasts of its mental, moral and physical cleanliness. If that is the best that modern society can do in the line of food supply, after a refining process of a thousand years, then the sooner we relapse into comparative barbarism, and grind our corn between a couple of stones, the better.

THE firm of Bryson and Sons are anxious to continue business at the old stand, but there is considerable probability that within a few weeks they may have to vacate the premises they now occupy.

AMUSEMENTS.

THE WARDE ENGAGEMENT.—Frederick Warde, the tragedian, will open his engagement at the Grand Opera-house tomorrow evening, presenting a list of new plays, in addition to the standard tragedies. Monday and Thursday evenings a play new to Los Angeles theater-goers will be presented, entitled The Mountebank. This romantic drama was first presented by Mr. Warde at the Grand Opera-house, St. Louis, January 22d. It scored an immediate success, receiving most favorable criticism. The play is in five acts, and was given in this country a number of years ago by the English actor, Charles Dillon, who presented it only on auspicious occasions. There are few tragedians on the stage today who can embrace the various range of characteristics with which the play abounds. Mr. Warde's repertory for the week will include the historical play of William Telt, which will be given on Wednesday and Friday evening, Virginius Friday matinée (Washington's birthday), Gaston Cadol Saturday matinée, and Richard III. Saturday night.

On Washington's Birthday, Agricultural Park will be the scene of a cowboy tournament, when all the various features of the work and play of the skiliful and daring cowboys will be realistically represented by a number of noted experts. A band of wild bulls are on the way hither from the mountains for this contest, and a number of untamed broncos, warranted to buck, are also secured. There will be illustrations of the "roundup," cutting out individual herds of stock, lassoing, tying down, branding, etc., and in the pastimes of the vaqueros there will be daring and skillful exhibitions of horsemanship, including all the wonderful feats described in the Seaside and other yellow-backed literature. Fred Engelhardt, who has won renown as a manager of great outdoor entertainments, has been secured to handle this event. ILLUSTRATIONS OF FRONTIER LINE.

THE COWLES GANG.

That Sweet-scented Outfit to the Front Once More.
The notorious den run by Mrs. Cowles, at
No. 528 Upper Main street, was the scene of another row last night, in which a big ruffian named Jack Burns was badly used up by a negro. Burns has been hanging about the place some time, and vesterday, when he learned that Cowles was in the when he learned that Cowles was in the City Prison, proceeded to run things. Mrs. Cowles objected to this, and, with the assistance of a man named Rickart, proceeded to "do µp" Burns, and then threw him out. Burns then went off and got drunk, after which he returned to the Cowles house, where he met a negro, who gave him a severe beating. Rickart found Burns lying in the yard, and had him arrested on a charge of disturbing the peace. Rickart and Burns are old-time enemies, and about a month ago the latter held Rickart's face against a redbot stove, badly burning him, and he took the present occasion to get even with him. There are some half a dozen witnesses in the case.

A Chinese Woman.

Last night about 9 o'clock a Chinese woman named Hong Gow applied at the police station for protection and asked to be locked up for the night. The woman said that she lived at the corner of Nigger alley opposite the Piaza, and that she had been greatly annoyed by a gang of Chinese high-binders who had threatened her. She was put inside, and during the night quite a number of Chinamen called to see her and tried to get her to go home, but she refused to have anything to do with them, and finally an old woman was sent up to keep her company, who slept in the cell with her. To-day Chief Cooney will investigate the case, and if there is any grounds for making arrests the offenders will be promptly taken in hand. The shooting of the "Peruvian Princese" and the running off of Mrs. Wong Ark has completely demoralized the female portion of Chinatown, and the whole of them are greatly worked up.

While in San Francisco Mr. Aguirre captured David Hersch, the embezzler, who was arrested on complaint of Max Steele in this city on the 6th inst. nice little pot," he says.

In the meantime, while the two gladiators are trying to arrange for a whack at the San Francisco sports' dollars, the Chicago contingent continues to denounce the so-called Indiana fight.

The Tribune has the following interview with a well-known sport who attended the fight: "I have often wondered how long people would consent to be guiled. Prize fighting is a queer fake. There never was a sporting event, except a special horse race, in the State when as much as \$5000 was put up to stay. It is 'pulled down' within an hour after the time it goes up. They talk about Billy Madden's bad management. I tell you he's the 'smoothest duck,' next to Pat Sheedy, in the sporting line, so far as making money is concerned. But about the fight. There was no fint and there was no intention of having a fight. The boys went down there for the gate money now they are talking about having a mother fight. Well, 'suckers' will bite again,"

The Evening Journal says: "Various excuses have been offered for the unexpected and embarrassing fiasco at North Judson, when two men, each having the reputation as a 'knocker-out,' faced one another in the ring for nearly five hours without getting a scratch. The most commonly accepted view is that it was a put-up job from the start, and was engineered to make money not only by the sale of takets, but by baiting some athletic club or coterie of sport-loving men into offering a big purse for a scrap in private."

It was reported today that Myers and McAuliffe would fight in 'private tonight before a select company, who will pay roundly for the privilege of seeing the mill.

HORRIBLE CRIME.

A Quarrel Ends in Three Murders and a Suicide.

Mason City (Iowa), Feb. 16.—[By the Associated Press.] Meager details of a dreadful tragedy at Glonville, Minn., reached here this morning. Three young ladies went to the home of an old couple to spend the evening. At 9 o'clock they started home, and had scarcely stepped out of doors when they were shot down by two ruffians. The old gentleman started to go for help, and while he was gone the fiends entered the house and killed the old lady. It is now learned that Joseph Chemelke, 19 years old, was the murderer of the three women. His 'victims' were lifts. Phillip Chemelke, his sisterian were lifts been on bad terms with his bruther. An Old Firm. Wrecked by His Rascalities.

Macon (Ga.), Feb. 16.—[By the Assectated Press.] This morning the Capital Bank caused warrants to be issued against John L. Adams of Adams & Co., cotton manufacturers and warehousemen. The charges are forgery, uttering forged paper, cheating and swindling. Adams went to jail in default of \$5000 ball.

Six years ago Adams commenced to speculate in futures losing heavily. He issued fictitious receipts for cotton, finally forging the names of responsible farmers and discounting the paper at the bank. Finally the bank became suspicious and

today caused his arrest. In his cotton ware-house 200 bales were found where there should have been 1000. The father of young Adams, aged 63, the senior member of the firm, has been ignorant of these transactions all the time.

In talking tonight Adams acknowledged the crime and stated that \$50,000 would barely cover the amount. His father is highly respected, and the house goes to the wall after doing business 30 years.

The Sun print a tabular showing made up from statements by the Illinois Central since 1882. From this it appears that \$50,265,840 worth of the road's securities have been marketed; that disbursements of \$25,718,807 are reported, leaving a difference of \$12,547,083, which is a remarkable discrepancy. THE RAILWAY TAX SUITS. Charges of Fraud in Their Presenta

SAN FRANCISCO, Feb. 16.—[By the Associated Press.] The Assembly Committee on Judiciary, appointed by the Legislature to examine into the tax suits against railroad companies, met in the State Suprem road companies, met in the State Supreme Courtrooms this morning. Creed Haymond, the Southern Pacific's counsel, made a lengthy argument on behalf of that road, stating that if it were not found that the railread company had paid half a million dollars in taxes more than was due the State, the company would contribute that sum to the State funds; and give bonds so to do. He would also help preserve a bill to do. He would also help prepare a bill that would collect the tax money from the company, and asked that one of the tax cases now pending go to the Supreme Court to determine whether the present system of assessment is in violation of the Constitu-

ion.

Haymond, in the course of his argument, cailed attention to the fact that the affidavit of the Treasurer of San Mateo county, appearing in the report of Controller Dunn, showed that all railroad taxes of that county had not been paid. This, he said, was false, and he could produce receipts to prove his assertion. Sevidence on this point will be taken in Secramento. taken in Sa

and he could produce receipts to prove his assertion. Evidence on this point will be taken in Sacramento.

Attorney Lezinski, representing Controller Dunn, said that the records were false, and that the Circuit Court and Supreme Court of the United States had been imposed upon, and that the latter tribunal had finally decided sgainst the State of California upon these false findings. The records were examined, and taking up case No. 85, he alleged that the United States Supreme Court had been led to believe that the railroad company was assessed for four miles of water between the foot of Market street and Oakland Mole at the same rate as the regular roadbed, when such was not the case. Lezinski said that these findings had been prepared in the railroad company's office, and there had been criminal negligence or something worse on the part of the State's legal representative in signing the stipulation upon which the findings had been based, and this fact would be established before the investigation closed.

Mo Millin's tariff bill, which was presented t the committee yesterday, was considered, and ordered reported to the House. According to the committee's estimates the bill would reduce the revenues \$72,000,000. It would reduce the revenues \$72,000,000. It is closely patterned after the Mills bill regarding the free list, with a few additions by the Senate. When this is disposed of, the committee, with a view to having at hand a bill to meet immediate emergencies, in the matter of excessive revenue, authorized a favorable report upon the bill prepared by Representative Breckinridge of Kentucky, which proposes to put tin plate and wool on the free list and reduce internal revenue as proposed in the Mills Bill (which in its revenue sections is identical with the Cowles Bill). The bill also includes the woolen worsted cloth sections of the Mills Bill. It is generally believed that this measure will be the main recourse of the Ways and Means Democrats in the approaching conflict with the Appro-

The same committee reporteds bill to reduce taxation and for other purposes.

Mr. Reed of Maine asked that the report on this bill be read.

The Speaker stated that the bill was not before the House for consideration.

Mr. Reed: is there a report?

The Speaker: There is a brief report.

The bill was referred to the Commistee of the Whole. The effect of the report of these two measures is to place them upon the calcular of the Internal Revenue Bill, to be reported from the Committee on Appriations and to give them the right of way unless the friends of the Cowies Bill can muster in sufficient force to set them aside.

An open collision between Bismarck and Waldersee is anticipated over the artillery credits during the debate in the Reichstag early in March. The report of Waldersee, now before the Bundesrath, demands a large extra credit. Bismarck opposes the demand, and Schellendorf sides with the Chancellor, denying that there is any necessity for what Waldersee recommends. The Emperor is undecided, but he shows a tendency in favor of Waldersee. Whether the internal crisis bursts into open rupture or not, the fact is certain that the influence of Count Waldersee over the Emperor grows, while that of Prince Bismarck wanes.

The resignation of Count von Schellendorf from the War Office will be hastened by the disputa. The Waldersee circle announces that his successor will be Gen. Kaltenboen Slachan. The resignation of Dr. von Schelling, Prussian Minister of Justice, is also immilnent.

THE DEADLY CIGARETTE. A Crusade Against Young Smokers

A Crusade Against Young Smokers at Fresho.

[Fresho Republican.]

As announced in yesterday's issue, some twenty-four of the dealers in cigars, tobacco and cigarettes have signed an agreement, to take effect on February 1st, to raise the price of cigarettes from 5 cents to 10 cents per package.

This is done with the view of preventing the sale of cigarettes to boys. The list comprises all but three cigarette dealers in the city, and this very fact myll prevent the movement from being productive of any good. As long as there is one place, let alone three places, in the city where boys can procure cigarettes at the rate of 5 cents a package, just so long will boys continue to buy them. The result of the present mevement will be to enormously increase the cigarette trade of the three dealers mentioned, for it is said that fully one-third of the total number of packages of cigarettes sold in this city are purchased by boys. It is a matter of regret that all the dealers in the deadly cigarette did not join in this movement to increase the price of the health-destroying "paper cigar." There is no profit in selling cigarettes at 5 cents a package, and while the doubling of the price would have lessened their consumption by boys, it would not have stopped it entirely. What is needed is a severe law, rigidly enforced, prohibiting the sale to boys of cigarettes at any price. There is no one who any longer claims the cigarette to be harmless, especially to boys, and there is a rapidly-growing sentiment in favor of absolutely prohibiting their sale to boys.

at San Francisco today, Secretary Bayard tonight said that Capt. Mullan of the Nipsic had acted sensibly in taking care of Klein, the correspondent. Recarding this man there seemed to be a misunderstanding on the part of the German officials.

Of the other events chronicled in the dispatch the Secretary pointed out that since its date telegraphic advices showed that martial law had been abolished so far as it applied to foreigners, and that the German officials had been rebuked. He had noticed in the newspapers that the German Consul, Knappe, and Herr Brandeis, Tamassee's adviser, who according to some accounts have been responsible for fomenting strife, have been ordered home by the German Government. If this were true, the state of affairs promises to be much relieved. Altogether Secretary Bayard was hopeful that a speedy, peaceful and satisfactory settlement of Samoan affairs would be reached. He had, he said, received no news from Samoa later than that sent to Congress and already published.

San Francisco, Feb. 18.—[By the Associated Press.] Melbourne papers brought
by the steamship Mariposa relate an inciobject and the second property of the Samoan complica-tions developed at a public dinner given at the close of the Melbourne Exposition by the Chief Commissioner, Sir James Mac-Bain, to Mr. Frank McCoppin, Commis-aioner for the United States, just were to sioner for the United States, just prior to the departure of McCoppin for the United States.

sioner for the United States, just prior, to the departure of McCoppin for the United States.

In his speech Sir James apoke of the close ties of relationship existing between the Australians and Americans. McCoppin, in reply, spoke of the future growth of fraternal feeling between the two countries, and also touched upon the growth of commerce between the two countries. McCoppin said:

"Right in the track of that commerce lie certain groups of islands which possess much interest for both America and Australia. America is now striving to preserve the autonomy of those islands, but Australia's silence would be deplorable in the give-and-take game, now being played by the statesmen of Europe, if the independence of those most interesting islands should be sacrificed."

This sentiment was loudly applauded by Sir James MacBain and his guests, while Herr Wermuth, the German commissioner, got up and left the room.

The Melbourne papers commented upon Herr Wermuth's act as an insult to the host and the American covernment in dispatching war vessels to the scene of disturbance, and severely criticises the inaction of the home Government of Great Britain.

GERMAN COMMENT.

GERMAN COMMENT.

Conflicting Opinions Expressed by the Berlin Press.

Berlin, Feb. 16.—[By Cable and Associated Press.] The National Zeitung, speaking of Samoan affairs, says that while recognizing the spirit of conciliation displayed by Germany, it is of the opinion that Germany's attitude will have an unfavorable effect upon her interests in the South Sea. The British naval officer, it says, behaved loyally, but not so the British Consul. In regard to the American Consul and Capt. Leary no censure can be severe enough, but it is hoped that after the recall of Sewall, America will see that words should be followed by corresponding acts.

Voseische Zeitung thinks the German Consul acted with more energy than discretion, while the Government maintained an attitude of cautious reserve. It says: "We cannot yet form a judgment as to whether or not the charges against the British and American agents are well founded. On their own showing, however, no praise is due the German agent for remarkable ability. The Government has exercised the greatest moderation and consideration for other powers. We hope the conference will result in permanent peace and order in Samoa instead of plunging the great civilized powers into war for a bagatelle."

Frestnate Zeitung, in an article headed "In a Blind Alley," says: "It has not yet been made clear whether Dr. Knappe is alone blamable. He had only been in Apia since November. He was instructed previously here and doubtless believed he was acting within his power in adopting the sharp measures of December 18th."

The Analysis
And report of the eminent Chicago chemist, C. Gilbert Wheeler, shows a remarkable aimflarity in the ingredients of the Coronade and Wisconsin Waukesha waters, he says that in fact their medicinal properties are almost identical. There is one thing, however in favor of the Coronado Waukesha Springs: They contain but one-half of the organic matter found in the Wisconsin Waukesha. Thus, while they are possessed of LADDER THOU.

BLESt, the Coronado is absolutely the purer water. Guests of the hold, expecially among seed persons, have hed great relief, and some rapid cures have been made from using the Coronado Waukesha.

SIMI RANCHO!

Cheap Lands. Good Lands. Prices and Terms to Encourage Settlers. So much has been said and written about the high prices for ordinary farming and fruit iand in Southern California that many Rastern people think that no good land can be had at less than \$200 per acre in any good locality. But if you will call at the headquarters of Simi Land and Water Company you will find that you can buy well watered stook ranges at \$5 to \$15 per acre, and every one of these ranges contains more or less good farming land. You can buy first-class valley lands for \$30 to \$15 per acre, and every one of these ranges contains more or less good farming land. You can buy first-class valley lands for \$30 to \$15 per acre, and smail tracts of \$16. 30 or of acres, for fruit farms, at about the about acres can be placed on want from 1000 to \$400 acres can be placed on want from 1000 acres can be placed on which is the proper within reach of any who can buy land at all, and on terms which will enable men of moderate means to acquire houses in an attractive and healthful part of Southern California. We do not claim to have the best land in the State, and at present are not directly on a railroad, but expect to be before long. But we do claim to offer better land and more advantages and on easier terms of payment than any other place that has been brought to our notice. It will cost you nothing but a posrai card to get detailed information about these lands. If you want a farm or a stock range write or call at 19 West First street, to a region and more advantages and on ask about the Simi ranch.

resting Meeting of the Board of Trustees-A Gala Time at the Library-A Budget of Local News

PASADENA, Feb. 16.—[Correspondence of The Times.] California day was grandly celebrated at the Loan Exhibit today. The morning, as usual, was allowed to go unobserved, but this afternoon crowned the success of the efforts put forth by the committee. The attendance was unusually large, including many distinguished citizens and guests from a distance. At 2 o'clock the Hungarian orchestra struck up a lively and popular air, and until clock kept the audience in a state of pleasure. Many choice selections from The Mikado were given, and many of the numbers encored. This evening the programme announced consisted of an outline of the proposed observatory by Prof. W. H. Pickering. Good music enlivened the occasion. A full account of this evening's programme will be published in THE TIMES of Monday.

Monday will be observed as Celestial day, and in the evening the orchestra from the Chinese theater will be in attendance. The musical programme this evening was under the direction of Mrs. Jirah D. Cole.

NOTES. Among the visitors at the exhibit today were noticed Col. H. G. Otis, wife and daughter. The party spent a very enjoyable time this afternoon driving about the city.

T. P. Lukens placed on exhibition in the historical department this afternoon the Springfield rifle owned by the late Oliver Brown. This gun was used in the fight at Harper's Ferry, and was the gift of John Brown to his son. About an hour after the gun had been placed on exhibition J. H. Painter been placed on exhibition J. H. Painter and wife, a venerable couple, came in and recognized it at once as John Brown's property. Mr. Brown at one time lived with the Painter family in Cedar Rapids, Iowa. W. B. Lyon of Riverside is in charge of an orange and lemon exhibit from that city. The display of fruit is very fine.

A STRANGE DEATH. Yesterday afternoon, as a number of young men were hunting for rabbits on the grounds of Hon. J. F. Crank, a peculiar accident took place. Two of the hounds were running with light-ning velocity in opposite directions, and, not noticing each other, came together with such force that one of them was killed outright, his neck being broken, and the other one was badly hurt. One of the valuable animals be-longed to J. de Barth Shorb, Jr., of San Gabriel, and was highly prized by that

CITY COUNCIL. The Board of City Trustees met in regular session at 9:30 this morning. Present: Councilman Townsend, McLean, Throop and President Parker The regular order of business was suspended and considerable time con-numed in examining the bills for the sumed in examining the bills for the house-numbering project. Mr. Throop objected to a number of the charges as being too excessive. Councilmen Townsead and McLean were in favor of settling the accounts for the full amount, although they hinted strongly that the Engineer had overstepped his authority in hiring help at too high a rate. It was recommended that the matter he referred to the committee.

rate. It was recommended that the matter be referred to the committee. In the absence of the Clerk, Alexander McLean was appointed Clerk pro tem. by the Chair.

The minutes of the last regular meeting were read.

The question of allowing Constable Butterworth to use the city yard for county purposes came up for a goodly share of discussion, and Justice Van Doren, who was present, stated that the matter at present placed him in a peculiar position, but that he had nothing to recommend.

The Committee on Auditing and Finance presented a partial report, referring back a number of bills to the Committee of the Whole without recommendation. Other bills were ordered paid

was heard and referred to the committee.

Warrants were ordered drawn for the payment of the corrected bills.

The question of allowing the employes of the Engineer's department pay for street numbering at their regular salaries, again came up, and Chairman Townsend thought the men should be paid the amount of their bills. President Parker objected and said the board had the authority to fix the amount. Mr. Throop thought there was a great complication in ascertaining what street work was being done, by whom, and what salaries were paid. The veteran solon was, however, of the opinion that the Engineer had put in the bills under his usual instructions, but notwithstanding this the board could yet fix the pay. The question heing in the fee pay. could yet fix the pay. The question being in the form of a motion, Mr. Townsend recommended two-thirds of the amount of each bill be allowed. The motion was withdrawn, another discussion followed as to the relative skillfulness of the employés and Mr. Townsend contended the employés should be paid the entire

proyes should be paid the entire amount.

President Parker objected, and said the employés when out of employment had the liberty of engaging elsewhere, and not wait around for two days' work a week. Said he, emphatically, the city expenses must be cut down.

A motion was then made by Mr. McLean to allow the bills for the full amount, though the motion was hotly protested by Mr. Throop. The motion was carried by a unanimous yote.

It was moved and seconded that for the instruction of the Committee on Street Work a schedule for future payment of the employés of the engineer department be adopted. Carried.

It is as follows: Transit man, \$3; draftsman, \$3; rodman, \$2.25, and chain man, £2 per diem.

They Went Out on a Bender with a Buggy.

Yesterday afternoon about 4:30 o'clock a telephone message was received at the police station, saying that a couple of dranken women in a buggy were raising a disturbance at the New Orleans Hotel. isturbance at the New Orleans Hotel, on Second street, near San Pedro, and asking that they be taken away. The patrol wagon was sent after them, but one of the women raised such a row that Officer Schoneke was called to assist Officer Rowan. The was called to assist Officer Rowan. The woman continued to resist the officers, and she finally had to be handcuffed before she could be got into the w gon, when she fell at full length on the bottom of the vehicle and refused to get up. She abused Schoneke all the way up to the station, and after she got inside started to assault him, at the same time using the foulest language. The women were finally got into the fail, when they quieted down, and when they were sober enough to walk they were released and sent home. They were registered as Jane Doe and Sallie Roe. It was afterward learned that the women were a couple of middle-aged widows residing at the Moffatt House, who hired a bugsy and started off to paint the town red. On their travels they stopped at the Four-mile House, where they drank more beer than was good for them, which made them quarreisome, and ended in their arrest. One of the women is about 45 years of age, very fat, not at all good-looking, and a regular Tartar. Her companion is several years younger, with a good face and figure, and evidently of some refinement. She said that she had three little chidren at home, and appeared to be greatly humiliated over her disgraceful position. She bitterly upbraited her fat companion for having got her into trouble. oman continued to resist the officers, and

A NEW DEAL

With the International Company of Mexico.
Private advices indicate that the affairs of this great corporation are about to be of this great corporation are about to be wound up. It appears that the threat made some months ago is about to be carried out. The Mexican Government will declare the company's concessions forfeited, and their franchises, with modifications, will be transferred to another company. It appears that such an arrangement has been pears that such an arrangement has been amicably adjusted to the satisfaction of the principal stockholders of the old company. The new company will be managed by the English people interested, who are now in control of affairs on the peninsula. The principal object of this new deal appears to be to get rid of a lot of unsettled obligations created by previous bad management, which they have been promising for many mouths to settle, but payment of which has been on vanious pretexts deferred.

Last Thursday a respectable appearing oung man who gave the name of James Armstrong was found on the street acting neerly, and was brought to the police sta ou, where he was booked for medica treatment and locked up. Armstrong has since remained in the City Prison, where he has been getting worse every day, and yes-terday he became so violent that the jailer had to p t him in a separate cell. Last night the man was as crazy as a bedbug, and if there is no improvement by this morning he will be removed to the County Jail.

the Iowans The Iowa Association held a ocial and entertainment at G.A.R. Hail last evening. The programme included vocal solos by Mrs. Wiseman, Miss Grace Whitehorn and Mrs. W. Beeson; violin selections by Schilling; clarionet solo by F. W. Bowers, and recitations by Miss Spear, Miss Hattle Pearson, Miss Cora Fay and Miss Kittle Richards and others. Also a true account and special report on the great Samean question by Capt. Glidden.

Look to Their Colors Los ANGELES, Feb. 8 .- [To the Edtor of THE TIMES.] I see by the published list of the precincts that the City Council has appointed E. J. Cox inr, and F. M. Nickel and J. M. Baldwin judges, for Precinct O of the First Ward, at the forthcoming city election. Mr. Nickel I know is of the Democratic persuasion, and J. M. Baldwin would not have been sucking Baldwin would not have been sucking the public pap as Street Superintendent until the other day if there were any doubt as to his politics. Please suggest to the Council that a Republican judge for this precinct would be in order, and oblige,

It is the general belief that very little can be done for ringing in the ears and catarrhal deafness. I make a stateme t of my case through gratitude to the docrors, as well as for the benefit of any who are troubled as I was. I was for a long time afflicted with ringing in the ears which made life a burden, and my hearing was failing so rapidly that I feared very much that I would soon become entirely deaf. The roaring, ringing and whistling were sometimes so great that I would be unable to sleep at in ght.

ceveral friends recommended me to consult Drs. Davis & Blakesleee, 45% North Spring street, saying they would not undertake my case unless certain they could effect a cure. After they had examined me and promised a favorable result from their treatment my thankfu ness was unbounded.

I received such benefit from the first treatment that I felt confident I would be cured and in two weeks' time, thanks to the Doctor and a merciful Frov dence the noises were gone, and the hearing was e tirely restored. The above wil be verified by calling upon me at 258 North Fort street. George M. Cra g

The above is but one of the many testimonials Drs. Davis & B'akeslee have on file at their offices, 5% North Spring street. Horeafter a new one will be published every week, and we will endeavor to coavince the most skeptical that many socalled incurable disease can be cured. They tell not what they can do, but what they have done and if any one doubts their ability they invite an investigation, as every one whose name is used can be interviewed.

ANNUAL TRADE NUMBER

-CONTAINING

A COMPLETE REVIEW OF THE YEAR.

Fifty-six Large Pages. Equivalent to a Two Hundred Page Book.

The Annual Trade Number of THE TIMES, now ready, is the most complete and in teresting publication of that character ever published in Los Angeles.

NOTABLE FEATURES—It contains a business review of the year, embracing a great mass of valuable facts bearing on the city and county; a thorough exposition of one matural resources—mineral, vegetable, commercial and climatic; a review of the rise s d progress of the boom, with solid proofs that the country is now in better condition than it was during the height of the real-estate excitement; a carefully compiled exposition of the varied inducements which Southern California offers to the health-seeker, the home-seeker and the tourist, besides a number of interesting and valuable special articles on pertinent subjects. It contains more solid information about the country than could be crowded into the compass of a hundred long letters, and for a few cents and the expenditure of a few minutes' time in writing the address you can send a friend more information than you could write in a month, even if you had all the facts at hand. For a dollar you can supply ten families in the frozen East with information that may lead them it join the army of pilgrims to Southern California, to their own and this country's advantage. Thus, whether viewed from the standpoint of friendship or self-interes it. in. Il be seen that no better use can be made of a dollar than by purchasing the rewith ten copies of the great Annual Trade Number of THE TIMES. Not one-tenth of the pleasure can be bestowed in any other way for the same amount of money.

hence the heavier sentence.

There was nothing new in the Batton case yesterday. Mrs. Batton is reported to have left Alhambra for Los Angeles, Friday afternoon, so that at the time her husband was making inquiry for her at police headquarters she must have been at home. If she is in the city she is keeping very quiet, as nothing was heard from either her or her mother by the police or detectives.

The Illinois Association.

The entertainment of the Illinois Association last evening was a successful affair. The audience completely filled Masonic Hall. There was instrumental music by Mr. and Mrs. Delano, singing by Mr. Averill and his quartette, Mrs. Mathews and Mrs. Dunham; recitations by Mr. Holmes. Pearlie Gleason and W. A. Ryan, the latter gentleman rendering an original and humorous production entitled "The Campaign Hat." He was greeted with roars of laughter in applause. All the other exercises were likewise received with demonstrations of delight.

Positive. Comparative. Nep-ristive.

The ast excursion to the Hotel del Coronado was a perfect success in every respect. Our many friends from east of the Rockies would make a great mistake were they to go back without participating in one of these delightful strictly Southern California excursions. The novel ride along the borders of that grand immensity, the Pacific Ocean, terminating only by the urrival at the "Botte del Coronado, without doubt the most complete and magnificent structure of its kind on the continent. Its stupendous proportions, completeness of details, the watchful precautions taken on every story and in every part of the vast building to protect its guests from harm and insure their perfect comfort, are attained only by unremitting vigitance on the part of its energetic and gentiemanly officials whose only aim is the comfort, safety and divorsion of all guests who may favor this un xceptional resort with their patronage. Remember Saturday, Pebruary 23d, at 16 s.m., our next excursion leaves Los Angeles.
